# Wasim Mohammad

Full stack web developer leveraging background in Information Technology to provide unique perspectives on how end-users interact with websites and software platforms. Earned a certificate in Full Stack Web Development from the University of Denver Coding Boot Camp. Innovative problem-solver who is passionate about developing apps with a focus on mobile-first design and development. Strengths in creativity, teamwork, and building projects from ideation to execution.

---

## Technical Skills

JavaScript ES6+, CSS3, HTML5, SQL, NoSQL, GitHub, MongoDB, MySQL, Express, React, Node, Handlebars, jQuery, Bootstrap

---

## Projects

- **Stud Light** | React, Node.js, Express.js, MongoDB, GraphQL, React Bootstrap, Stripe, JavaScript | October 2022  
A full website that enables users to create their own collection of flash cards with the ability of organizing them according to a specific topic.  
<https://stud-lite.herokuapp.com/> | <https://github.com/dhealy83/stud-light>
- **Five Guys** | Node.js, Express.js, MySQL, Handlebars, Sequelize, JavaScript, RESTful API, Bootstrap, Stripe | September 2022  
An ordering system similar to Five Guys fast food restaurant. It allows users to check the menu, order, and pay online.  
<https://arcane-mesa-45752.herokuapp.com/> | <https://github.com/jmobrien1976/Five-Guys>
- **Movie Finder** | JavaScript, HTML, CSS | August 2022  
It is a movie finder website where the movies are grouped by the genre that users can choose from the search bar.

# Experience

AUGUST 2014 – MARCH 2015

## **Web Content Assistant / Pearson, Centennial CO**

- Converted raw course content into static and/or interactive, web-ready content to be added to the eCollege course delivery system
- Migrated (copy & paste) content from one platform to another using defined course maps, this includes moving and re-linking of code and files
- Added text and images to online courses
- Retrieved and troubleshoot automated errors during conversion process and implements solutions within defined parameters
- Developed online educational content by using web scripting languages (HTML, Style Sheets, JavaScript, etc.). This can include: Creating new code and Reconstruction of existing code
- Quality Assurance Testing of automated and manual work
- Tracked of work progress and QA outcomes utilizing Microsoft Excel and Word
- Daily reporting/communication with team lead.

JAN. 2013 – AUGUST 2013

## **.Net Developer / Child Care Aware of America, Arlington VA**

- Worked on the 3-tier architecture (Presentation layer, Business layer, and Data Access layer), and used LINQ to SQL to retrieve data from the SQL Server 2008 database
- Created of stored procedures, functions, and optimized queries using SQL Server 2008
- Used WCF to integrate and pass data between different distributed components/modules
- Used JavaScript scripting language for client-side validations
- Used TFS for version controlling

---

# Education

## **Coding Bootcamp Certificate / University of Denver, Denver, CO**

## **Masters in Information Technology / Colorado Technical University, Aurora, CO**
